WHAT INFORMATION DO WE COLLECT?

Information automatically collected

We automatically collect certain information when you visit, use or navigate the app. It may include device and usage information, such as your IP address, browser and device characteristics, operating system, language preferences, referring URLs, device name, country, location, information about how and when you use our app and other technical information. This information is primarily needed to maintain the security and operation of our app, and for our internal analytics and reporting purposes.

Information collected through our app

If you use our app, we may also collect the following information:

- *Geo-Location Information.* We will request access or permission to and track location-based information from your mobile device, either continuously or while you are using our mobile application, to provide location-based services. If you wish to change our access or permissions, you may do so in your device's settings. Location data will be collected in two ways. The first is once daily when you fill in the daily form. The location information will be saved when you submit the form. The other way is continuously in the

background of your mobile phone when you are moving around. We will be collecting the latitude and longitude information of the participant. The level of accuracy depends on your internet connection. If your internet connection is stable then the location saved will be more accurate than if you have a weaker connection. High accuracy means an exact location with a margin of 5 meters error.

- *Mobile Device Data.* We may automatically collect device information (such as your mobile device ID, model and manufacturer), operating system, version information and IP address.
- *Push Notifications.* We may request to send you push notifications regarding your account or the mobile application. If you wish to opt-out from receiving these types of communications, you may turn them off in your device's settings.

Information collected from other sources

We may obtain information about you from other sources, such as public databases, as well as from other third parties.

We process your personal information for these purposes in reliance on our research interests, in order to enter into or perform a contract with you, with your consent, and/or for compliance with our legal obligations. We indicate the specific processing grounds we rely on next to each purpose listed below.

- To manage user accounts. We may use your information for the purposes of managing our account and keeping it in working order.
- To find opportunities for future intervention apps within this project

WILL YOUR INFORMATION BE SHARED WITH ANYONE?

We may process or share data based on the following legal basis:

- Consent: We may process your data if you have given us specific consent to use your personal information in a specific purpose.
- Performance of a Contract: Where we have entered into a contract with you, we may process your personal information to fulfill the terms of our contract.
- Vital Interests: We may disclose your information where we believe it is necessary to investigate, prevent, or take action regarding potential violations of our policies, suspected fraud, situations involving potential threats to the safety of any person and illegal activities, or as evidence in litigation in which we are involved.

HOW LONG DO WE KEEP YOUR INFORMATION?

We will only keep your personal information for as long as it is necessary for the purposes set out in this privacy notice, unless a longer retention period is required

or permitted by law (such as tax, accounting or other legal requirements). No purpose in this policy will require us keeping your personal information for longer than 2 years past the termination of the user's account.

When we have no ongoing research interests need to process your personal information, we will either delete or deidentify it, or, if this is not possible (for example, because your personal information has been stored in backup archives), then we will securely store your personal information and isolate it from any further processing until deletion is possible.

HOW DO WE KEEP YOUR INFORMATION SAFE?

We have implemented appropriate technical and organizational security measures designed to protect the security of any personal information we process. However, please also remember that we cannot guarantee that the internet itself is 100% secure. CONTROLS FOR DO-NOT-TRACK FEATURES

Most web browsers and some mobile operating systems and mobile applications include a Do-Not-Track (“DNT”) feature or setting you can activate to signal your privacy preference not to have data about your online browsing activities monitored and collected. No uniform technology standard for recognizing and implementing DNT signals has been finalized. As such, we do not currently respond to DNT browser signals or any other mechanism that automatically communicates your choice not to be tracked online. If a standard for online tracking is adopted that we must follow in the future, we will inform you about that practice in a revised version of this privacy notice.
